PROJECTS

Bicycle Accident Prevention Website (HTML/CSS & AngularJS)

- Created a website for a client that shows areas with frequent bicycle accidents on a map by combining open API sources
- Extracted public data from various websites and implemented responsive web design for clear functionality on both web and mobile platforms
- Used Adobe XD to create unique borders and icons

Onitama Board Game(Python)

- Implemented an Onitama game in Python, utilizing my OOP design skills and data structure knowledge gained from school
- Developed unique algorithms for various game functions, including undo, movement validation, and winner detection

WORK EXPERIENCE

Military Service (Republic of Korea Army)

Nov 2021 – May 2023

- Served as a Satellite Operator and Administrative Officer, facilitating communication between senior staff and new recruits to support their transition into the organization
- Developed strong teamwork, communication, and leadership skills while serving as a group leader to a dozen troops for six months
- Utilized Excel to efficiently organize new recruits and pre-existing troops with general functions plus vlookups, xlookups and index and match

Mathematics Tutoring

Feb 2024 - Jun 2024

- Remotely taught mathematics to various students from grades 1 to 6, along with pre-calculus and calculus for highschool students
- Developed personalized lesson plans and guided students through practice questions to ensure thorough application of mathematical concepts

Server

May 2024 – Aug 2024

Sakana Sushi Restaurant

Toronto, ON

- Developed proficient multitasking abilities in a fast paced environment while consistently delivering high-quality customer service
- Established strong teamwork skills by collaborating with kitchen staff and servers, and managed point-of-sale systems
- Trained new staff to ensure smooth workflow and exceptional customer satisfaction

VOLUNTEER EXPERIENCE

Korean Student Club (York KSAY)

Sep 2023 – April 2024

- Facilitated team meetings and provided support with club event coordination
- Spearheaded a speed networking/Q&A session event and recruited working professionals and alumni to speak on the panel

Job Fair Assistant

Oct 2021

KOTRA

Seoul, KR

- Greeted visitors and professionals at the front desk, providing assistance and information during the job fair
